Entry Level Civil Engineer Position Announcement

Conservation Design Forum (CDF) is seeking a talented entry level civil engineer interested in creative approaches to sustainable site design, and water resource-based land planning and design. Candidates should be self-motivated with excellent communication and learning skills, and be interested in working in a team environment. For more information visit www.cdfinc.com.

Preferred experience:

- Bachelor's degree in Civil Engineering (M.S./M.E. preferred)
- Completed Fundamentals of Engineering
- One to Two years experience preferred
- Knowledge of AutoCAD
- Knowledge of stormwater models

Salary commensurate with knowledge and experience.

Please send resumes to:

Mr. Thomas H. Price, P.E.

Director of Water Resources Engineering
Conservation Design Forum
375 West First Street
Elmhurst, IL 60126
